# DETAILED SITE PLAN

*Provide a detailed site plan of the space you require, anticipated land alterations, as well as any materials or structures that will be used on site. Ensure your drawing is to-scale and that all measurements are provided.*

A large, empty rectangular box with a black border, intended for the user to draw a detailed site plan. The box occupies most of the page below the instructions.

# ATTACHMENTS

*Attach all relevant materials such as your proof of insurance, product descriptions for the materials you intend to use, letters of support, etc.*
